THE Finest Quality Hammer-Type Cable Cutters

Here are the original portable impact cutters, invented by Morse-Starrett, and designed for one purpose: to cut wire rope. Actuated by striking with a hammer, they are simple to operate, and do a superior cutting job with only a few blows. These cutters are precision engineered to deliver a cut without affecting the original roundness of the wire rope. The blades and dies are made of the best tool steel available, heat treated and ground to close tolerances.

No other similar product matches M-S quality of material and workmanship.

WARNING

Wear safety goggles, use cable bands and read instruction sheet before using this tool.

For Cutting Wire Rope:

Up to 5/8" - Model 1 designed for occasional on-the-job-cutting.

Up to 1-1/16" - use Model 1A.

Up to 1-1/2" - use Model 2.

GUARANTEE: Morse-Starrett guarantees to replace — free of charge — any tools or parts that do not meet its specifications in material or workmanship. Performance guaranteed.

OTHER QUALITY CUTTERS FROM MORSE-STARRETT:

Blade (With Pin)	135	5 oz.
Blade Pin Only	136	1 oz.
Plunger Guide Pin	137	1 oz.
Guard	138	3 oz.
Warning Decals	139	

MORSE-STARRETT CABLE BANDS

Designed for use with the Morse-Starrett cutter. The band is a sheet of pliable but very tough steel indented with a groove and lock seam at one edge and is made in lengths and sizes to fit various sized cable up to 1 1/2 inches in diameter.

Application of the band is simple; requires no special tools; and may be made in 20 seconds with an ordinary pair of pliers.

Note: Each size rope requires a band of corresponding size. All bands packed and sold in boxes of 50 of a single size only.

CABLE BANDS — Steel, Galvanized

3/16"	1/4"	5/16"	3/8"	7/16"	1/2"
